

Product Description

Height: 9.5mm

Interface: SATA(ODD)-SATA(HDD)

HDD support: 2.5-inch notebook hard drive with SATA or SATA2

Features: High quality stainless steel, difficult deformation, not easy damaged, high-quality PCB board, fast speed and stability transmission.

Mainly compatible: New models of Apple Macbook / MACBOOK PRO466/470/985/991/990 and the latest 371 373 374 and almost all the models after 466.

Universal 9.5mm hard drive bracket for Apple MacBook/MacBook Pro gives you maximum flexible storage, and makes you to add a second Apple Series hard drive into the SATA supported HDD bracket. Add a second hard drive to the drive position, you will be able to backup application programs and datas and then get a higher storage expansion.
